What was your overall first impression of the website? Very well put together, good first impression.

Did you have any technical difficulties as you navigated through the pages and displayed the projects? None.

What do you feel are the most effective design elements of this web portfolio? The flow of the site and the use of colors from the icons and cards. Nice looking site.

What would you suggest be changed with the design or content of this web portfolio? Really only thing I would recommend is more work on the contact page. Compared to the rest of the site, it doesn't seem to match as well or fit the theme. Could use some more customization.
